

The Charité is one of the largest university hospitals in Europe representing a single medical faculty that serves both Humboldt Universität zu Berlin and Freie Universität Berlin. Clinical care, research and teaching is delivered by physicians and researchers of the highest international standard. The Charité extends across four campuses, and has close to 100 different departments and institutes, which form a total of 17 different CharitéCenters. The Charité has been awarded the certificates 'family-friendly employer' (audit berufundfamilie®) and 'family-friendly university' (audit familiengerechte hochschule®) and is a member of the "Dual Career Network Berlin" (www.dualcareer-berlin.de).

Immunology has a long tradition of excellence at Charité - Universitätsmedizin Berlin. To structurally strengthen this area, the Executive Board of Charité has decided to bring together and integrate bench-based research of the Institutions mentioned below into a jointly operated "Department of Immunology". The newly founded "Department of Immunology" shall constitute the nucleus for immunology research in Berlin and shall establish strong and synergistic links with other immunologically oriented disciplines within and outside of Charité, in particular, in the framework of the well established partnerships with the German Rheumatism Research Centre and the Max-Delbrück Centre for Molecular Medicine.

The successful candidates will be founding Directors of the "Department of Immunology" at Charité - Universitätsmedizin Berlin. As part of the application, each candidate should explicitly state her/his vision for the "Department of Immunology" including research topics, required technologies and strategies for career development of personnel.

The Charité - Universitätsmedizin Berlin invites applications for **four Full-Professorships (tenured) in the broader immunological field** (Salary Group W3 BBesG ÜfBE).

Full Professorship in Infectious Diseases

(Reference Number: Prof. 562/2020)

The Candidate

At the Charité-Universitätsmedizin Berlin within the CharitéCenter 12 for Internal Medicine and Dermatology we invite applications for a Full Professorship (tenured) for Infectious Diseases. The main responsibilities of the further holder of the position includes the responsibility for Infectious Diseases in Research, Teaching and Patient Care at Campuses Mitte and Virchow Clinic of the Charité as well as the management of a Division for Infectious Diseases within the Department of Infectious Diseases and Respiratory Medicine at the Charité. The division for Pneumology is represented by a further Full Professorship (tenured) with a management function.

We are looking for

a nationally and internationally renowned and scientifically excellent and clinically proven personality, who will structurally develop the clinical and scientific activities in the field of Infectious Disease especially Translational Infectious Immunology and further strengthen the future-oriented profile in this area.

Full Professorship in Rheumatology and Clinical Immunology

(Reference Number: Prof. 565/2020)

The Candidate

At the Charité-Universitätsmedizin Berlin within the CharitéCenter 12 for Internal Medicine and Dermatology we invite applications for a Full Professorship (tenured) for Rheumatology and Clinical Immunology. The main responsibilities of the further holder of the position includes the responsibility for rheumatology and clinical immunology in Research, Teaching and Patient Care at all Campuses of the Charité as well as the management Medical Clinic with focus on Rheumatology and Clinical Immunology at the Charité

We are looking for

a nationally and internationally renowned and scientifically excellent and clinically proven personality, who will structurally develop the clinical and scientific activities in the field of rheumatology and clinical immunology and further strengthen the future-oriented profile in this area. The close cooperation of the Medical Clinic with focus on Rheumatology and Clinical Immunology at the Charité with the DRFZ should be continued and a concept for the cooperation should be explicitly presented in the application.

Complete job description at: https://career.charite.de/am/calls/2017/call_for_applications_565_2020.pdf

Qualifications: According to the higher education act of Berlin for hiring professors (§ 100 BerlHG), the academic prerequisites for this position include either a professorship, junior professorship, postdoctoral lecturer qualification (habilitation), or equivalent scientific achievement including qualified teaching experience or a similar qualification. International applicants must have a German language diploma/certificate (according to the Conference of Ministers of Culture) at C2 level. The employment occurs as a professor with an employment contract in accordance with § 102 Abs. 5 BerlHG. **Please note the hiring requirements of the respective job posting at <https://career.charite.de>.**

The Charité committed to increasing the proportion of women among the scientific personnel, therefore we strongly encourage women to apply. Women will be given preference over equally qualified men (within the framework of the legal possibilities). We value diversity and therefore welcome all applications - regardless of gender, nationality, social background, religion or age. Equally qualified applicants with disabilities will be given preference.

Written applications according to the format specified on https://career.charite.de/am/calls/application_notes.pdf should be submitted by **January 29, 2021** at <https://career.charite.de>. As part of the requested short concept for the professorship please submit a proposal of 2-3 pages in German and/or English outlining your ideas on future research and how these will tie in with the existing entities at the Charité and associated research institutions (BIH, MDC, DRFZ).
